

Knowledge Organiser – Brunswick School

Subject: Geography	Year Group: 1	Summer 1																		
Study Block: Maps																				
What should I know already?	Diagram/Map/Photo etc...																			
<p>I can name the counties in the UK. I can use world maps, atlases and globes to identify the United Kingdom and its countries. I know the difference, and can name some human and physical features around Penrith/Lake District.</p>																				
What will I know by the end of the unit?																				
<ul style="list-style-type: none"> I can use simple compass directions (North, South, East and West). I can use locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map. I can use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features. I can begin to recognise some symbols that represent human and physical features on a map. I can follow directions to find a place on a map. I can create my own map (journey to school/playground/pirate map). 	<table border="1"> <thead> <tr> <th colspan="2" data-bbox="667 925 1484 965">Vocabulary</th> </tr> <tr> <th data-bbox="667 965 874 1003">Word</th> <th data-bbox="874 965 1484 1003">Meaning</th> </tr> </thead> <tbody> <tr> <td data-bbox="667 1003 874 1077">Map</td> <td data-bbox="874 1003 1484 1077">A drawing of part of the Earth's surface to show where things are.</td> </tr> <tr> <td data-bbox="667 1077 874 1115">Aerial view</td> <td data-bbox="874 1077 1484 1115">The view from above.</td> </tr> <tr> <td data-bbox="667 1115 874 1153">Compass</td> <td data-bbox="874 1115 1484 1153">A tool to show direction.</td> </tr> <tr> <td data-bbox="667 1153 874 1227">Compass directions</td> <td data-bbox="874 1153 1484 1227">North, East, South and West.</td> </tr> <tr> <td data-bbox="667 1227 874 1301">Symbol</td> <td data-bbox="874 1227 1484 1301">A picture, letter or line on a map to show a real life feature, e.g. church, car park.</td> </tr> <tr> <td data-bbox="667 1301 874 1375">Key</td> <td data-bbox="874 1301 1484 1375">A list of symbols used in a map.</td> </tr> <tr> <td data-bbox="667 1375 874 1473"></td> <td data-bbox="874 1375 1484 1473"></td> </tr> </tbody> </table>		Vocabulary		Word	Meaning	Map	A drawing of part of the Earth's surface to show where things are.	Aerial view	The view from above.	Compass	A tool to show direction.	Compass directions	North, East, South and West.	Symbol	A picture, letter or line on a map to show a real life feature, e.g. church, car park.	Key	A list of symbols used in a map.		
Vocabulary																				
Word	Meaning																			
Map	A drawing of part of the Earth's surface to show where things are.																			
Aerial view	The view from above.																			
Compass	A tool to show direction.																			
Compass directions	North, East, South and West.																			
Symbol	A picture, letter or line on a map to show a real life feature, e.g. church, car park.
